ORANGES AS MEDICINE. People are coming round more and more to the true opinion that mineral drugs don't aid, but rather retard, recovery in case of sickness, and that the only true medicine is to be found in those that nature supplies so freely-air, water and food.

Foremost in value as medicine foods are fresh fruits, and none of these rank higher than oranges. Oranges are very rich in organic salts. They contain a high smount of potassium, calcium and sulpher, surpassing both cow's and human milk in this respect. No other fruit has such a high percentage of sulphur. Orange juice contains on an aveaage 11; per mille acid, which accounts for the high amount of potash and lime which are necessary for the formation of natural fruit acids. Pure formation of natural fruit acids. orange juice is an ideal remedy for scrufuls, rickets, nervousness, and es-pecially blood disease (principally scurvy). It is most valuable for the reduction of uric acid and other waste mattr in the system, and therefore both a preventive and curative food for rheumatism and gout. Consumptive and anemic people will also be greatly benefited by a diet of oranges on ac-count of the high percentage of blood-

building salts they cont in.

Lemons have the largest amount of magnesium lime of all the truits. They show the greatest acidity—73 per mille. Their juice is excellent for the prepara-tion of both fruit and vegetable salads and should altogether replace vine ar, which is worse than alcohol, by depriving the blood of its important organic salts. Its medicinal quantiles are highly appreciated in the cure of uric need discusses. [Des Moines Regist r. acid diseases. — [Des Moines Regist r and Leader.

PRAYER ANSWERED? Twelve hours after Rev. George Ed ward Lewis in a public prayer saked that the amusement resorts of Irving Park, Chicsgo, where liquor is served, might "be burned to the ground" Ex-celsior Park was consumed by fire yesterday.

The prayer was offered during a revival meeting of the Emmanuel Congregational Church held in a tent. Excelsior P. rk is within three blocks of the improvised church.

Propriet rs of other parks in the neighborhood admit that they are both puzzled and frightened. They also declare that they have taken precautions to protect their properties. The effect of the preacher's words and the actual burning of one of their rivals in business have bastened a general expurgation of the faults touched on by the minister.

A. J. Smith, proprietor of the place, says that his loss will be about \$50,000. He thought that crossed electric wires was probably the cause of the fire. He had not called on Dr. Lewis and he was not present when the minister of real not present when the minister offered his answered prayer Sunday evening.

An investigation is to be made. The police are looking for two mea who were

seen near the park early in the day.
